

Gua Sha Meridian Sculpting with Zemits EvoPlasm

A results-driven facial that combines traditional massage with advanced technology to lift, sculpt, and stimulate collagen production.

- **Cold plasma** enhances fibroblast activity and temporarily increases skin permeability, optimizing absorption while strengthening the barrier.
- **Biomimetic growth factors** support cellular regeneration, collagen synthesis in the skin & follicular activity on the scalp.
- **Gua Sha ThermaLift** sculpt and defines facial contours, stimulate meridian points, and boost circulation for visible lift and revitalization.
