NEWBEAUTY.COM

THE **BEST** *OF THE* **BEST**

Nearly 10,000 products. Six months of testing: long-wear foundations during hot photo shoots, lush moisturizers during long-haul flights, waterproof mascaras during tearjerker movies. Top dermatologists and plastic surgeons vetted the science and safety of the most powerful lasers, injectables and in-office treatments. Our criteria is simple: Each winner has to be the very best at what it does. Here, the 206 best beauty products in the world.

Jane Iredale Triple Luxe Long Lasting
Naturally Moist Lipstick

LASER FOR GLOWY SKIN

The go-to nonablative laser that continuously gets rave reviews, **Fraxel** works on and below the skin's surface to reduce fine lines, visible photo aging, wrinkles, scarring and sun damage.

Fraxel has withstood the test of time and is a safe, predictable way to rejuvenate the face. The recovery time is typically only a few days based on the patient's skin type and treatment goals.

KAMRAN KHOUBEHI, MD

FILLER FOR LAUGH LINES

When the face is at rest—not smiling or laughing—and deep-set lines around the mouth are still visible, **Restylane Refyne** smooths them in a natural-looking way so the face looks refreshed, not “done.”

One of the most versatile hyaluronic acid fillers on the market right now, **Restylane Refyne** is a great option for reducing smile lines, and results generally last up to one year.

TAMI BUSS CASSIS, MD

CELLULITE MINIMIZER

FDA-cleared and minimally invasive, **Cellfina** delivers a long-awaited solution for smooth, dimple-free skin by releasing the bands that pull down on fat, causing the orange-peel look.

Before **Cellfina**, we didn't have any treatments that gave real improvement and lasted, but **Cellfina** has been shown to have high patient satisfaction, even four or five years after treatment.

—NEW JERSEY PLASTIC SURGEON
REZA MOMENTI, MD

POST-PROCEDURE ESSENTIALS

HEALING BALM

Stock up on petroleum-free **Doctor Rogers Restore Healing Balm** before a laser treatment—it's clinically proven to help with burns, dry patches and wounds.

HEALING SPRAY

Le Mieux Iso-Cell Recovery Solution offers up eight therapeutic minerals to instantly soothe skin, making it an essential to keep on hand after a peel.

REPAIR CREAM

First Aid Beauty Ultra Repair BarriAIR Cream does exactly what its name suggests with a lightweight, pretty-much-perfect velvety consistency.

REPAIR GEL

Whether it's from a peel, laser or other in-office treatment, tender skin can benefit from the copper peptides in **NEOVA Clinical Recovery Cu3 Transforming Gel**.

REPAIR SERUM

Biopelle Tensage Intensive Serum 40's growth factor-fueled ampoules dramatically reduce downtime from aesthetic treatments like microneedling, lasers and more.

SCAR TREATMENT

Medical-grade silicone scar sheets and 100-percent silicone scar gel meet in **ScarAway Complete Scar Treatment Kit**, a well-thought-out system that works day and night.

SOOTHING MASK

No matter the source of skin irritation, miracle-working **Avène Antirougeurs Calm Soothing Mask** can make it better overnight.

POST-PROCEDURE SUNSCREEN

EltaMD UV Replenish Broad-Spectrum SPF 44 contains a lot of hyaluronic acid, a lot of invisible zinc and a lot of high-level protection.
