

MICRODERMABRASION SCRUB

Refine & Rejuvenate

Sound bite: "Buff and glow."

What is it?

Skin-refining scrub exfoliates, clarifies congested pores, and reduces the appearance of skin imperfections. Features medical grade **corundum crystals** and botanicals that include **jojoba, arnica, willow bark, and ginseng** extracts to enhance tone and texture, revealing a smooth, radiant complexion.

What does it do?

- Clarifies & reduces the appearance of congested, enlarged pores
- Balances uneven tone & texture
- Reduces signs of environmentally damaged skin
- Leaves skin smooth, even & radiant

How do I use it?

Moisten client's face with water and apply scrub to face and neck. Massage gently for 2-3 minutes, avoiding eye areas. Peeling process varies according to the amount of time you massage the skin and the firmness of the strokes. Remove thoroughly with moistened sponge or warm towel.

What skin types and conditions does it benefit?

Skin types: Dry, normal, combination, oily

Skin conditions: Blemishes, dehydration, dullness, fine lines, hyperpigmentation

KEY INGREDIENTS

Jojoba Oil: Clears clogged pores & helps balance sebum production

Shea Butter: Softens, seals in moisture & helps protect against environmental damage

Ginseng Extract: Brightens, soothes, enhances circulation & protects against oxidative damage

Willow Bark Extract: Clears congested pores, minimizes pore size & regulates excess oil production

Arnica Flower Extract: Anti-inflammatory properties soothe & relieve skin irritation
