

STEMCELL EGF

Firm & Refine

Sound bite: "This godfather of all serums targets and terminates signs of aging skin."

What is it?

Super potent anti-aging serum with **age-reversing peptides, stem cells, and powerful growth factors** encourages the regeneration of new surface cells for radiant, supple, younger-looking skin. Groundbreaking follicular transdermal technology helps visibly minimize lines and wrinkles and improve the appearance of sagging facial contours.

What does it do?

- Improves the appearance of fine lines, wrinkles & sagging facial contours
- Promotes collagen & elastin synthesis while combating collagen breakdown
- Defends against signs of environmental & UV damage
- Stimulates hyaluronic synthesis to restore softness & suppleness

How do I use it?

After cleansing and toning, apply 1-2 pumps onto face and neck. Avoid direct contact with eyes.

What skin types and conditions does it benefit?

Skin types: Dry, normal

Skin conditions: Dehydration, dullness, lines & wrinkles, sagging

KEY INGREDIENTS
