

5% GLYCO POLYMER SOLUTION

EXFOLIANT

Resurface &
Refine

RETAIL 0.5 oz

SOUND BITE: "Multi-tasking micro-peel."

Polymerized micro-peel lightly exfoliates the skin using glycolic acid to refine uneven texture, tighten pores, and minimize the appearance of fine lines. Green tea and cucumber extracts help calm skin and provide antioxidant benefits to promote a smoother complexion with fewer breakouts.

WHAT DOES IT DO?

- Refines uneven texture & tightens pores
- Glycolic acid minimizes the appearance of fine lines
- Helps discourage future breakouts
- Promotes a healthy-looking glow

DIRECTIONS

After cleansing, saturate a cotton pad with 3-4 drops and smooth over onto face as needed, avoiding contact with eyes. Slight tingling may occur. Do not rinse. *Sun protection is recommended when using this product.*

SKIN TYPES

dry, normal, combination, oily

CONDITIONS

blemishes, dullness, lines, congested pores, hyperpigmentation

KEY INGREDIENTS

Glycolic Acid

Exfoliates, smooths wrinkles & reduces the appearance of dark spots

Gluconolactone

Plumps & firms skin while minimizing appearance of enlarged pores

Witch Hazel

Calms skin & promotes renewal while providing antioxidant benefits
