

ProFerm Masks

Powered by probiotic fermented botanicals

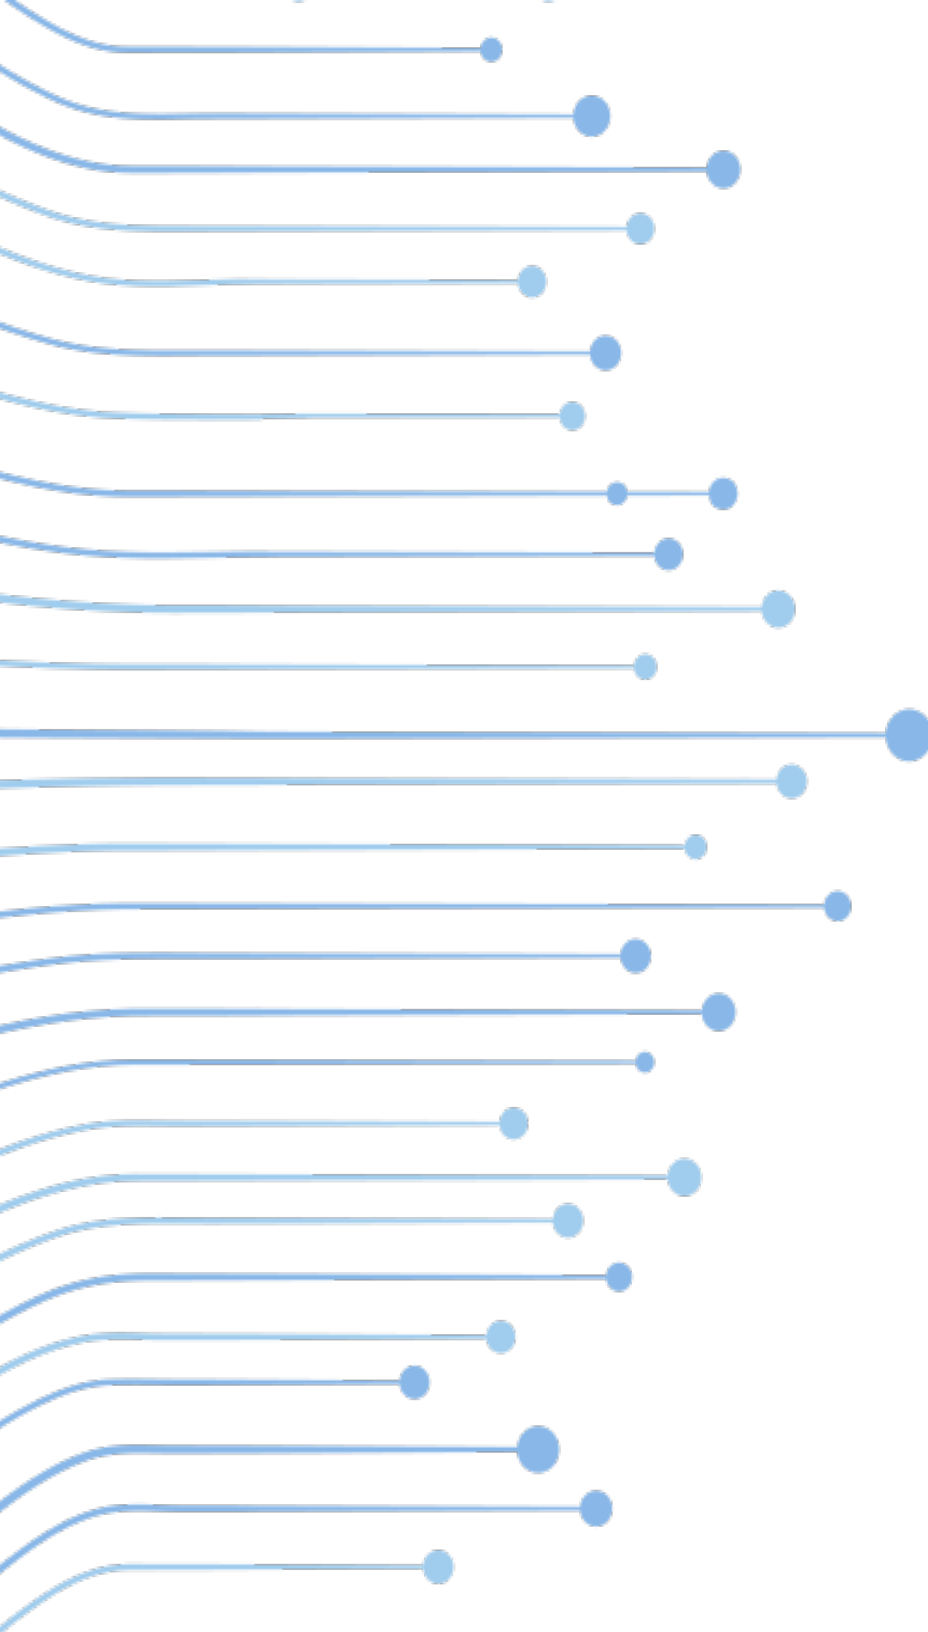

Fermented botanical ingredients break down actives for maximum bio-availability and added benefits.

- Lower risk of irritation
- Barrier boosting
- Microbiome friendly
- Free radical defense

Break it down for me...

Enzymes and yeast break down complex compounds into smaller, simpler particles via **fermentation**. This process creates kimchi, yogurt, kombucha, along with the alcohol and bubbles in champagne.

Fermentation Forward

Fermenting botanical ingredients in skincare break down actives for maximum bio-availability and added benefits.

- Lower risk of irritation
- Barrier boosting
- Microbiome friendly
- Free radical defense
