

GROWTH FACTOR SERUMS

Growth factors are crucial to healthy cell growth and skin recovery to prevent and treat signs of aging. As skin ages, growth factors decline, **resulting in slower cell turnover and increased collagen breakdown**. Le Mieux growth factors are bioidentical peptides **that mimic** skin's natural signal proteins. When applied topically, **these** biomimetic growth factors help **support** skin recovery and **the** collagen **matrix** for smoother, firmer skin.

Directions: Layer, blend, or use with **Ionized Oxygen Infuser** prior to mask and/or moisture.

TGF-β BOOSTER

Supercharged serum supports firm skin with transforming growth factor and boosts results when used with other products.

ACTION

- Reduces fine lines
- Improves firmness
- Boosts product power

FOR

Normal to dry skin
Early signs of aging
Non-breakout-prone

PRO TIP

Layer under serums, masks, and moisturizers to boost results.

EGF-DNA

Ultimate repair serum with epidermal growth factor and hyaluronic acid encourages skin renewal and boosts skin recovery.

ACTION

- Energizes cell renewal
- Supports skin recovery
- Resets aging skin

FOR

Normal to dry, aging
Post procedure
Non-breakout-prone

PRO TIP

Use post procedure to kickstart skin recovery.

STEMCELL EGF

Super-potent serum with epidermal growth factor, alpine rose stem cells, and powerful peptides promotes collagen synthesis to re-activate visibly youthful-looking skin.

ACTION

- Reactivates collagen
- Reduces wrinkles & sagging
- Antioxidant protection

FOR

Normal to dry
Deep signs of aging
Lackluster skin
Non-breakout-prone

PRO TIP

Advise as home care to boost professional treatment.
