

Le Mieux

RENEW. REGENERATE. REVIVE

ABOUT CHEMICAL PEELS

As we age, our skin loses its youthful essence. Skin is left vulnerable to harmful environmental aggressors on a daily basis, enhancing the detrimental effects of aging such as bags, fine lines, wrinkles, dark spots...etc. Chemical peels are great ways to exfoliate the epidermis to **facilitate exfoliation and reveal newer, fresher skin underneath**. Removing dead skin cells further enhances product efficacy and unveils more even, clear, and smooth skin.

Many chemical peels focus on key acids that are to be applied topically. Applying acids onto the skin not only exfoliates the skin, but also provides nourishment and hydration.

Le Mieux's Key Acids include:

Alpha-Arbutin: derived from Bearberry Leaves

Azelaic Acid: derived from Wheat

Glycolic Acid: derived from Sugar Cane

Lactic Acid: derived from Milk

Mandelic Acid: derived from Bitter Almonds

Salicylic Acid: derived from the bark of the Willow Tree

Acids in effective concentrations treat aging skin by helping exfoliating dead skin cells that prohibit the skin from absorbing nutrients and facial treatments. Disintegrating the barrier of dead skin cells enhances anti-aging benefits such as minimizing the appearance of fine lines, wrinkles, pigmentation, dullness, dehydration and uneven skin tone. Acids also treat younger skin conditions such as large pores and acne-troubled complexions.

Le Mieux's exclusive line of professional peels offers a wide range of strengths and benefits to address various skin concerns and conditions. Applying peels through a series of treatments helps patients to achieve the results they desire.

LE MIEUX CHEMICAL PEELS

M15 (15%)

Mandelic + Arbutin Peel Solution

Conditions: Dullness, Uneven Skin Tone, Sun Damage, Fine Lines and Wrinkles

Skin Types: Dry, Mature, Normal, Combination

Ingredients: Pyrus Malus (Apple) Fruit Water, Hyaluronic Acid, Gycyrrhiza Glabra (Licorice) Root Extract, Methyl Gluceth-20, Hydrolyzed Oats, Allantoin, Mandelic Acid, Alpha-Arbutin, Sodium Lactate, Sodium PCA, Xanthan Gum, Glycine, Fructose, Niacinamide, Zemea Propanediol, Brown Sugar Extract, Glucose, Glucose Oxidase, Lactoperoxidase

M30 (30%)

Mandelic + Arbutin Peel Solution

Conditions: Forte-Dullness, Uneven Skin Tone, Sun Damage, Lines and Wrinkles

Skin Types: Dry, Mature, Normal, Combination

Ingredients: Pyrus Malus (Apple) Fruit Water, Hyaluronic Acid, Mandelic Acid, Gycyrrhiza Glabra (Licorice) Root Extract, Methyl Gluceth-20, Hydrolyzed Oats, Allantoin, Alpha-Arbutin, Sodium Lactate, Sodium PCA, Xanthan Gum, Glycine, Fructose, Niacinamide, Zemea Propanediol, Brown Sugar Extract, Glucose, Glucose Oxidase, Lactoperoxidase

AML20 (20%)

Azelaic + Mandelic + Lactic Peel Solution

Conditions: Hyperpigmentation, Dark Spots, Age Spots

Skin Types: Dry, Mature, Normal, Combination, Oily, Acne

Ingredients: Pyrus Malus (Apple) Fruit Water, Hyaluronic Acid, Azelaic Acid, Mandelic Acid, Lactic Acid, Gycyrrhiza Glabra (Licorice) Root Extract, Methyl Gluceth-20, Hydrolyzed Oats, Allantoin, Alpha-Arbutin, Xanthan Gum, Sodium Lactate, Sodium PCA, Glycine, Fructose, Urea, Niacinamide, Glucose, Glucose Oxidase, Lactoperoxidase

GSA25 (25%)

Glycolic + Salicylic + Azelaic Peel Solution

Conditions: Congested Pores, Oily Skin, Acne

Skin Types: Normal, Combination, Oily, Acne

Ingredients: Pyrus Malus (Apple) Fruit Water, Hyaluronic Acid, Glycolic Acid, Salicylic Acid, Azelaic Acid, Gycyrrhiza Glabra (Licorice) Root Extract, Methyl Gluceth-20, Hydrolyzed Oats, Allantoin, Alpha-Arbutin, Xanthan Gum, SD 40 Alcohol, Sodium Lactate, Sodium PCA, Glycine, Fructose, Niacinamide, Zemea Propanediol, Glucose, Glucose Oxidase, Lactoperoxidase
