HOME CARE PRODUCTS

Daily
Iso-Cell Recovery Solution
Derma Relief Serum
Hyaluronic Serum
EGF-DNA

- Cleanse** Cleanse skin with **Peptide Foam Cleanser** or **Phyto-Nutrient Cleansing Gel**, depending on skin type. Rinse well and pat dry.
- Exfoliate** Combine **Hungarian Enzyme Mask** with warm water at a 1:1.5 ratio. Use brush to apply to face and neck. Gently massage for 1 minute. Let dry 5-10 minutes, then remove with a warm, moist towel. Tip: Exfoliate using **Skin Perfecter** with spatula tip angled down, keeping skin moist with **Iso-Cell Recovery Solution**.
- Serum** Apply **Hyaluronic Serum**. To target fine lines and wrinkles, apply **Rx Complex Serum**. To balance uneven skin tone, apply **Vita-C Serum**.
- Rezenerate** Apply a few drops of **Hyaluronic Serum** to lips. Perform Rezenerate treatment. Mist skin with **Iso-Cell Recovery Solution** to provide slip and to soothe skin.
- Mask** Apply **Bio Cell+ Mask**. Optional: Cold hammer, ice globes, or ice roller may be glided over mask. Remove mask after 15-20 minutes. Do not rinse.
- Calm** Massage serum from mask into skin. Mist skin with **Iso-Cell Recovery Solution**. To calm irritated skin, apply **O² Calming Gel**.
- Boost** To boost repair, apply 1 pump **StemCell EGF** or 3-4 drops **EGF-DNA**.
